Fundraising Priority Overview

Where Your Partnership Goes: Our 6 Key Priorities

At Red Hill Elementary, community partnerships directly bridge the gap between basic district funding and an exceptional education. When your business partners with the Red Hill PTA, 100% of your investment directly powers these six core initiatives:

1. STUDENT SUPPORT STAFF (\$90,000 / YEAR)

The heart of our campus. Unlike most elementary schools, Red Hill directly funds key personnel: a full-time school counselor, a dedicated physical education teacher, and Tier II academic intervention specialists who catch struggling readers and mathematicians before they fall behind.

2. HANDS-ON STEM LAB (\$25,000 / YEAR)

Weekly, interactive science for every student. Led by *All Things Science*, our lab provides hands-on experiments in coding, engineering, chemistry, and circuits—building scientific confidence early. (Presenting Sponsorship available at \$5,000).

3. ORGANIZED SPORTS AT LUNCH RECESS (\$15,000 / YEAR)

Active, inclusive play. Partnering with Beyond Athletics, professional coaches turn lunchtime recess into structured games that teach teamwork, resolve conflicts, and ensure every child is included.

4. SCHOOL GARDEN PROGRAM (\$15,000 / YEAR)

Outdoor, hands-on learning. Provides hands-on nutrition and environmental science lessons, garden maintenance, and supply upkeep that enrich science curriculum across all grade levels.

5. ARTS & CULTURAL ENRICHMENT (\$20,000+ / YEAR)

Inspiring creativity and performance. Fully funds visual arts instruction (Art Masters), classical music education (Class Act in partnership with Pacific Symphony), Red Hill performing arts, and visiting educational assemblies.

6. CAMPUS SAFETY & FACILITY UPGRADES (\$20,000-\$40,000)

Protecting and improving our learning spaces. A one-time capital investment to install classroom window tinting for enhanced campus security, alongside multi-purpose room (MPR) enhancements used by the entire school community.
